

Healing Through Hypnosis **Client Agreement**

Hypnosis benefits are proven and expectations are relative to client responsibility and commitment to succeed. Hypnosis is highly effective in applications for behavioral improvement and stress management necessary for good health and well-being. It is a powerful tool in utilizing the resources of your mind and body to benefit you. Its benefits are relative to your participation, similar to that of a physician who prescribes medication/treatment; it works if you use it.

In this regard, as a Hypnotist:

1. I do not diagnose, treat or cure disease.
2. I will determine if I am trained to work with your specific issues and if not, I will refer you to other professionals.
3. I am trained and certified in the skills of hypnosis and its beneficial applications.

Hypnotist and client relationship responsibilities include the following statement of understanding. If I am presented with information that may be illegal or threat of harm to you or others (e.g. suicide, child abuse), I am legally obligated to report this possibility to authorities.

I have reviewed the stated information. I understand and accept the responsibilities of the hypnotist/client professional relationship that have been explained to me verbally and in written form.
